Plagiarism

Plagiarism is the representation of another author's language, thoughts, ideas, or expressions as one's own original work. In educational contexts, there are differing definitions of plagiarism depending on the institution. Prominent scholars of plagiarism include Rebecca Moore Howard, Susan Blum, Tracey Bretag, and Sarah Elaine Eaton, among others.

How to avoid plagiarism

- Keep track of the sources you consult in your research.
- Paraphrase or quote from your sources (and add your own ideas).
- Credit the original author in an in-text citation and reference list.
- Use a plagiarism checker before you submit.

Thought for the day: Agriculture is the most healthful, most useful and most noble employment of man.
