Humboldt Research Fellowship Program in Germany

FULLY FUNDED

500 Fellowships

<https://opportunitiespedia.com>

Humboldt Research Fellowships 2022-23 in Germany are highly prestigious fellowships awarded to excellent researchers from all over the world. The Alexander von Humboldt Foundation awards approximately 500 Humboldt Research Fellowships annually, providing scientists and scholars with the opportunity to carry out long-term research projects of their own choice in Germany. Humboldt Fellows are supported for a period of six to twenty-four months. The Humboldt Foundation grants Humboldt Research Fellowships to outstanding researchers from all disciplines, who are currently working outside of Germany, in order to enable them to spend extended periods of time doing research in Germany.

Fellowships are awarded on the basis of academic excellence and the potential for academic achievement. Humboldt Fellowships can be held at any research institution in Germany, including universities, universities, colleges, or research institutions.

Humboldt Research Fellowship 2022-23 in Germany is an excellent opportunity for researchers to conduct research in Germany and to experience German culture. The program is available for all nationalities and provides funding for research projects in all disciplines. Humboldt Research Fellowship in Germany is a research outline that is carried out in cooperation with academic hosts at research institutes. The applicants choose their topic of research and their host in Germany. This kind of flexibility is unparalleled in most other fellowship programs. Humboldt Research Fellowships are awarded in all disciplines, i.e. natural sciences, engineering, and the humanities. Disciplines in which Humboldtians have particularly distinguished themselves are medicine, biology, chemistry, physics as well as African and Asian studies and Slavonic studies. Humboldt Fellowships foster international cooperation between excellent scientists and scholars from all over the world and from Germany.
