Subject: Report on World Soil Day Program – December 5, 2023

## I. Introduction

On December 5, 2023, a comprehensive program was conducted in commemoration of World Soil Day at Halehalli, Gowribidanur taluk, Chikkaballapura district. The event was organized by the [University/Institution Name], under the guidance and directives of the Dean of the University of Agricultural Sciences, GKV, Bangalore.

## II. Program Details

### A. Venue:

The program took place at Halehalli, located in the Gowribidanur taluk of Chikkaballapura district. The chosen location was strategic, considering the agricultural significance of the region.

### B. Participants:

1. Dr. Satish, Soil Science Professor
2. Dr. Manjunath, Pathology Professor
3. farmers

### C. Agenda:

1. **Inauguration and Welcome Address:**
  - The event commenced with a formal inauguration, welcoming the participants and attendees.
  - A brief overview of the importance of World Soil Day and its global significance was presented.
2. **Keynote Address by Dr. Satish:**
  - Dr. Satish, a renowned Soil Science Professor, delivered an enlightening keynote address on the current state of soil health and the challenges faced in agricultural practices.
  - Emphasis was placed on sustainable soil management and the role of farmers in preserving soil fertility.
3. **Presentation by Dr. Manjunath:**
  - Dr. Manjunath, an expert in pathology, provided insights into soil-borne diseases affecting crops.
  - Practical strategies and preventive measures were discussed to mitigate the impact of soil pathogens on agricultural productivity.
4. **Interactive Workshops and Demonstrations:**
  - Various workshops and demonstrations were conducted to engage the audience actively.
  - Topics included soil testing methods, nutrient management, and disease control measures.

5. **Panel Discussion:**

- A panel discussion involving both professors and local farmers allowed for a diverse exchange of ideas.
- Challenges faced by farmers in the region were addressed, and potential solutions were explored.

6. **Closing Ceremony:**

- The program concluded with a closing ceremony, expressing gratitude to the participants and acknowledging their valuable contributions.
- Certificates of participation were distributed to attendees.

III. Conclusion

The World Soil Day program held on December 5, 2023, at Halehalli, was a resounding success. The presence and expertise of Dr. Satish and Dr. Manjunath added immense value to the event. The knowledge shared and discussions held are expected to contribute positively to sustainable agricultural practices in the region.

The uasb gkvk banglore extends its gratitude to all participants, especially Dr. Satish, Dr. Manjunath, and the farmers of Halehalli, for making the program a meaningful and insightful experience.

Sincerely,  
vishwanatha cn
